**Kata Kunci:** Ekstrakurikuler Al-Banjari, Perilaku Keagamaan, Siswa.

Penelitian ini dilatarbelakangi oleh pentingnya kegiatan ekstrakurikuler keagamaan sebagai salah satu sarana untuk mendukung perkembangan perilaku keagamaan siswa. Penelitian ini bertujuan untuk mengetahui pengaruh kegiatan ekstrakurikuler Al-Banjari terhadap perilaku keagamaan siswa di MTs Rahmat Said Bongkot Peterongan Jombang serta mengetahui besarnya kontribusi kegiatan ekstrakurikuler Al-Banjari terhadap variasi perilaku keagamaan siswa.Penelitian ini menggunakan pendekatan kuantitatif non-eksperimental dengan analisis regresi linear sederhana. Populasi dalam penelitian ini adalah seluruh siswa yang mengikuti kegiatan ekstrakurikuler Al-Banjari di MTs Rahmat Said Bongkot Peterongan Jombang yang berjumlah 30 siswa. Teknik pengambilan sampel menggunakan sampling jenuh, sehingga seluruh anggota populasi dijadikan sebagai sampel penelitian. Pengumpulan data dilakukan menggunakan angket dengan skala Likert. Sebelum digunakan, instrumen penelitian diuji validitas dan reliabilitasnya. Hasil penelitian menunjukkan bahwa terdapat pengaruh yang signifikan antara kegiatan ekstrakurikuler Al-Banjari terhadap perilaku keagamaan siswa. Hal tersebut ditunjukkan oleh hasil analisis regresi sederhana dengan nilai signifikansi sebesar 0,000 < 0,05, sehingga $H_0$ ditolak dan $H_1$ diterima. Hasil analisis koefisien determinasi menunjukkan nilai R Square sebesar 0,502, yang berarti kegiatan ekstrakurikuler Al-Banjari memberikan kontribusi sebesar 50,2% terhadap variasi perilaku keagamaan siswa berdasarkan model regresi yang digunakan, sedangkan sebesar 49,8% merupakan pengaruh yang diberikan selain dari ekstrakulikuler Al Banjari. Berdasarkan hasil penelitian tersebut, dapat disimpulkan bahwa kegiatan ekstrakurikuler Al-Banjari memiliki pengaruh yang signifikan terhadap perilaku keagamaan siswa di MTs Rahmat Said Bongkot Peterongan Jombang. Hasil penelitian ini menunjukkan bahwa kegiatan ekstrakurikuler Al-Banjari dapat menjadi salah satu kegiatan yang mendukung pembinaan perilaku keagamaan siswa di lingkungan madrasah.

## ABSTRAK

Syahira, Faida 2026**.** The Influence of Al-Banjari Extracurricular Activities on Students' Religious Behavior at MTs Rahmat Said Bongkot Peterongan Jombang**.** Undergraduate Thesis, Institut Agama Islam Al-Urwatul Wutsqo (IAI UW) Jombang. Elysa Nurul Qomaria, M.Pd.

**Keywords:** Al-Banjari Extracurricular Activities, Religious Behavior, Students.

This study was motivated by the importance of religious extracurricular activities as one of the means of supporting the development of students' religious behavior. This study aims to determine the influence of Al-Banjari extracurricular activities on students' religious behavior at MTs Rahmat Said Bongkot Peterongan Jombang and to determine the contribution of Al-Banjari extracurricular activities to the variation in students' religious behavior. This study employed a quantitative non-experimental approach using simple linear regression analysis. The population consisted of all students participating in the Al-Banjari extracurricular activity at MTs Rahmat Said Bongkot Peterongan Jombang, totaling 30 students. A saturated sampling technique was employed, meaning that all members of the population were included as research respondents. Data were collected using a Likert-scale questionnaire. Prior to its use, the research instrument was tested for validity and reliability. Data analysis was conducted using normality. testing, linearity testing, simple linear regression analysis, t-test, and coefficient of determination ($R^2$). The results showed that there was a significant influence of Al-Banjari extracurricular activities on students' religious behavior. This was indicated by the results of the simple linear regression analysis, which showed a significance value of $0.000 < 0.05$, indicating that $H_0$ was rejected and $H_1$ was accepted. The coefficient of determination analysis produced an R Square value of 0.502, indicating that Al-Banjari extracurricular activities contributed 50.2% to the variation in students' religious behavior based on the regression model used, while the remaining 49.8% represented variation not explained by Al-Banjari extracurricular activities in the research model.Based on these findings, it can be concluded that Al-Banjari extracurricular activities have a significant influence on students' religious behavior at MTs Rahmat Said Bongkot Peterongan Jombang. The findings indicate that Al-Banjari extracurricular activities can serve as one of the activities supporting the development of students' religious behavior within the madrasah environment.
